

Corporate Fact Sheet

Overview Three-Sixty Advisory Group, LLC is a business accelerator that helps emerging health-care and medical technology companies speed their time to value. The company works with businesses to accelerate growth, performance and capital.

Three-Sixty's executive leadership and broad partner network represent the industry's best talent across numerous functional areas. Its client teams are created from the ground up, based on a 360 degree review of each client's objectives and needs.

Services Three-Sixty Advisory Group provides investment opportunity assessment, access to financing and a host of business acceleration services that include hands-on support in executive-level management as well as nearly every functional business area. These include finance, operations, sales, marketing, information technology, performance improvement, legal and regulatory oversight.
